

Above is pure map of first game where green stick men are main player, cashier, farmer, chef, shelvers. It is approximately ruff plan but looks appropriate because from all vibe code or refer game map you cannot understand what I need that's why I made handmade map. For mart 2,3 whatever next are also same as mentioned. And please make sure no one's can teleport from the border, wall. Not main player, shelter, chef, farmer, buyers.

And yes Color doesn't matter just focus on arrangement
